

## Wind-Power Projects Already Slated in Texas

*Below are a few of the largest wind-power projects planned in Texas.*

- **TXU Electric** is purchasing the entire output of a 160-megawatt wind farm planned by **Florida Power and Light Group**.
- **American Electric Power** is building a 130-megawatt wind farm.
- **National Wind Power** and **Orion Energy** are developing a 31.5-megawatt wind farm.
- **Reliant Energy** has agreed to buy the output of a 208-megawatt facility to be built south of Odessa, on King Mountain. It will be Texas' largest wind farm.
- **Enron Wind** has plans to build, in Pecos County, a 135-megawatt wind power facility that will consist of 90 turbines.
- **El Paso Electric** has begun construction on a wind farm located near the Hueco Mountains.
- **Southwestern Public Service Company** has signed a 15-year purchase agreement with **Cielo Wind Power**, which will build an 80-megawatt wind farm near White Deer.
