

Requiring PUC to Set Conditions Allowing All Customers to Interconnect Distributed Renewable Generation

HB 1866 by Rep. Solomons

AECT Position: Support

Proposal

- HB 1866 would entitle all buyers of retail electric service to interconnect distributed renewable generation according to conditions established by the Public Utility Commission of Texas (PUC).

AECT Position

- AECT supports HB 1866 as a way to provide greater opportunity for development of distributed renewable generation statewide.
