

**Support CSHB 1535 by Frullo**

# **Support Modernized Ratemaking for Non-ERCOT Electric Utilities**

**CSHB 1535 will:**

- Modernize the outdated ratemaking processes for all non-ERCOT electric utilities, which will **increase investment in needed infrastructure** for these fast-growing parts of Texas
- Improve bond ratings for all non-ERCOT utilities, allowing them to access capital at lower interest rates, **creating savings that are passed on to all their customers**
- Better synchronize investment and cost recovery, creating a **more efficient regulatory system while reducing “regulatory lag”**
- **Maintain the authority** of the PUC to review rates and the ability of cities, large customers and other affected parties to participate in ratemaking proceedings

**Support CSHB 1535  
For More Efficient, Reliable Electric Service  
in All Non-ERCOT Areas**
